

Fiserv Global Services Delivery Center in Pune

Fiserv India, a wholly owned subsidiary of Fiserv, Inc., a Fortune 500 company, and one of the largest providers of information technology services to the financial services industry worldwide, announced that it is opening a new delivery center in Pune. The new center is part of the company's growth strategy in India focused on leveraging world class talent available in the country.

Pune, India May 24, 2007 -- The Pune center is being set up in a 100,000 square foot area in the prestigious Kalyani Nagar area, with the capacity to house 1,500 professionals. With this, Fiserv India now has four global delivery service centers; the three existing centers are in Noida, NCR region employing more than 1,000 professionals.

The Pune center will provide IT, quality assurance testing, business process outsourcing (BPO), and infrastructure services to customers in various financial services domains including banking, credit unions, insurance, payments, credit cards, investments, lending and healthcare. The new center will also enhance Fiserv India's business continuity and disaster recovery capabilities.

Commenting on the company's expansion plans, Dr. Arun Maheshwari, president, Fiserv Global Services Group said, "The new global services delivery center is a critical part of our India growth strategy. In order to reach our growth goals, we need to tap resources in multiple cities with quality manpower. Pune was selected because of its high quality of manpower resources, excellent educational institutions, cosmopolitan culture and good infrastructure. We will continue the geographical expansion both in India as well as in other lower cost countries."

About Fiserv India: Fiserv India is a part of the Fiserv Global Services (FGS) group of Fiserv, which was set up in October 2005 to accelerate globalization of the parent company's operations. Fiserv Global Services is focused on becoming the preferred partner for offshore services in the financial services industry across technology platforms, enabling FGS customers to lower cost and improve quality of their services. It currently has global delivery centers in India and plans to expand to other countries in the near future.
