Fiserv India to take headcount to 5,000 by '09

PTI

NEW DELHI

FISERV India, a global entity of Fiserv Inc, a Fortune 500 company and one of the largest providers of IT services to financial services industry worldwide, said it will increase its headcount from 1,000 to 5,000 in the next two years.

"We are currently adding 100 employees a month in India and

plan to accelerate that rate. The headcount growth is a testament to the strong support from the parent company as well as of the strong delivery capabilities of the Indian employees," founding president Fiserv Arun Maheshwari said.

The company is focused on becoming the preferred partner for offshore services (IT, BPO and Infrastructure) in the financial services industry.

Fiserv India to increase headcount

New Delhi, May 6

Fiserv India, a global entity of Fiserv Inc, a Fortune 500 company and one of the largest providers of IT services to financial services industry worldwide, today said it will increase its headcount in the country to 5,000 in the next two years from the current level of 1,000.

“We are currently adding 100 new employees a month in India and plan to accelerate that rate. The headcount growth is a testament to the strong support from the parent company as well as of the strong delivery capabilities of the Indian employees,” the founding President, Mr Arun Maheshwari, said. The company which started its operations in the country just 18 months ago, is focused on becoming the preferred partner for offshore services (IT, BPO and Infrastructure) in the financial services industry across technology platforms, enabling customers to lower costs and improve quality. Its domain focus includes banking, credit union, insurance, payments, investments, lending and healthcare. It also provides quality assurance testing services through its recently established Centre of Excellence in India. — **PTI**

Fiserv plans to hire more

Our Bureau

New Delhi, May 3

Fiserv India, providers of information technology services to the financial services industry, today announced that it has reached the milestone of having 1,000 employees within 18 months of having set up local operations.

The company plans to increase its operations significantly and grow its headcount to more than 5,000 employees by end-2009, said a company release.

Fiserv India is a part of the Fiserv Global Services group of Fiserv, which was set up in October 2005 to accelerate globalisation of the parent company's operations.

FISERV TO INCREASE INDIA HEADCOUNT

NEW DELHI: Technology solutions provider Fiserv India on Tuesday said it will increase its headcount in the country by over five times to 5,000 by the end of 2009.

The company, which started its operations in India in 2005, currently has 1,000 people here, Fiserv said in a statement.

Fiserv India is a part of Nasdaq-listed and Fortune 500 company and provides information technology services to the financial services industry.

It currently delivers its solutions and services to its parent company and is planning to start serving Fiserv's 18,000 customers soon globally.

The company had recently established Center of Excellence in the country, the statement said, adding that India operations play a significant role in Fiserv's globalisation strategy.

Fiserv to increase headcount in India by 2009

New Delhi: US-based IT major Fiserv Inc. Tuesday announced its plans to increase its headcount to 5,000 in India within the next two years.

The company's wholly owned Indian subsidiary Fiserv India, which was established in 2005 as part of the company's global expansion strategy, has recruited 1,000 employees so far.

"Fiserv's globalisation strategy aims at tapping global resources and world class talent, to help our customers effectively leverage the power of technology, and deliver cutting edge products and services in the extremely competitive financial services industry, to enable our customers to achieve best-in-class results," Arun K. Maheshwari, president, Fiserv India said in a statement.

"We are currently adding 100 new employees a month in India and plan to accelerate that rate. The headcount growth is a testament to the strong support from the parent company as well as of the strong delivery capabilities of the Indian employees," he added.

The \$4.5 billion Fiserv Inc. is a Fortune 500 company, which provides information management systems and services to the financial and insurance industries.

Some of its key services include transaction processing, outsourcing, business process outsourcing (BPO), software and systems solutions. (IANS)
